Torin

Planning, management, and optimization of your surgical department — made easy.

GETINGE ✳

Torin

Easy scheduling for busy operating rooms

Torin is the complete OR intelligent solution designed to improve your workflows in the OR and ensure that cases stay on track, utilizing resources efficiently in and across departments.

Less time planning, more time operating

Torin reduces administrative tasks to free up time for quality patient care. Both long term and daily planning becomes easier and more accurate, which leads to reduced waiting times and increased OR utilization. Torin also presents hospital management with real-time analytics on usage enabling better hospital-wide decisions.

Reduce time for OR coordination

Torin helps optimize time spent in the OR with easy identification of available resources. Torin can help schedule cases so all systems work flawlessly.

Ensure a calm care environment for patients

Torin provides staff with updated case information to support communication to patients and their relatives. Patients experience a seamless experience from the moment they enter the OR.

OR management in three levels

Matching your facility's needs

Torin Planning
User-friendly OR scheduling and visual overviews

Torin Planning helps surgical departments optimize their long- and short-term surgery plan and increase OR utilization.

- Validated and conflict-free surgery plan.
- Maximized use of resources.
- Consistent quality of care.

Torin Progress
On-time execution and complete documentation

Torin Progress supports surgical staff and managers in handling the increasing complexity in the surgical department.

- On-time surgery schedule.
- Rescheduling tool to accommodate deviations.
- Complete surgery documentation.

Torin Optimization
Business intelligence for optimized decision support

Torin Optimization promotes advanced surgical planning, efficient day-to-day management, and improved resource utilization.

- Unique data analytics for decision support.
- Improved department performance.
- Customized solution.

Expansions
Covering the entire surgical flow through integrations

Torin offers a number of expansion options for a better integrated surgical flow and increased patient safety.

- Add-on functionality and modules.
- Integration to existing hospital IT solutions.
- Expansion to collaborating departments.

Integration to existing hospital IT solutions	○	○	○
Expansion to collaborating departments		○	○

Utilize OR resources better and enhance coordination

in and across departments

You can change between 1, 2, 5 and 7-day view depending on preferences and needs.

Torin's scheduling interface allows you to plan, prioritize, and reschedule daily, monthly, and weekly appointments.

Torin captures and time stamps all steps in the surgical patient journey, ensuring complete documentation of each procedure.

Torin provides overview of and contact information for available staff directly from the interface.

Torin enables staff to communicate in the application, sharing notes across all user accounts.

Torin automatically checks for resource and staff conflicts so that you can avoid double bookings and mismanaged case loads.
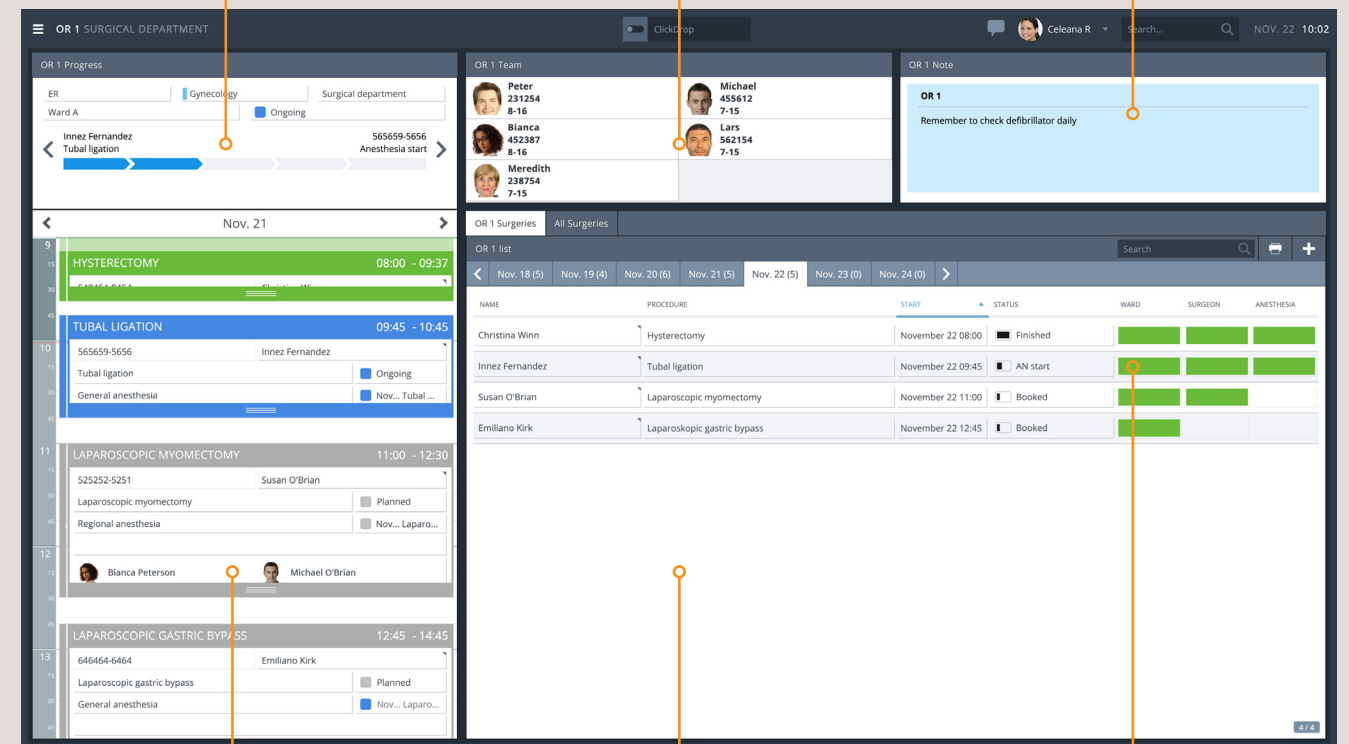

All appointments are color-coded according to procedure type for a fast and easy overview.

Opening hours for each OR is easily identified to make planning more cost-efficient. The dark gray is when the OR is closed.

With assigned patient or task responsibilities, surgical staff knows where to be and when, which reduces waiting times and delays.

To ensure transparency, updates from within the OR during surgery is automatically shared in real-time across coordinator screens and monitors in collaborating departments.

Torin indicates patient readiness for surgery through visual checklists. This helps improve patient safety, limit delays, and ensure a smooth surgical workflow.

Benefit from a long-term strategic partnership

With Getinge, enjoy a high availability of setup and technical support, ongoing collaboration, integration with existing IT infrastructure, and proven success through references.

Getinge's efficiency software solutions

Getinge's suite of IT solutions brings you a safer, integrated and better utilized facility that supports greater consistency and efficiency, enabling healthcare professionals to focus on delivering the best possible care for patients.

Everything you need for success
