bright ideas to life

Every day, hospital staff worldwide have T-DOC at their fingertips. The combination of profound T-DOC experience with clinical workflow insights makes T-DOC users our most valuable experts.

Getinge invites all T-DOC users worldwide to define how tomorrow's T-DOC should look. Submit your ideas to the T-DOC Idea Forum and be a part of shaping the most efficient workflow.

Turning ideas into new T-DOC functionality

The T-DOC Idea Forum is an intuitive feedback management system where T-DOC users can easily submit ideas for improvements in T-DOC. You can create new ideas, search, comment, and vote on others' ideas. The T-DOC Idea Forum is accessible for all T-DOC users, from all browsers, no matter your installation size or geographic location

With the T-DOC Idea Forum, Getinge seeks to ensure a customer-centric approach to the future development of T-DOC, allowing for a more systematic and transparent set-up with continuous feedback to our customers.

Get started today

1. Go to t-doc.uservoice.com

2. Select "I'd like access please" the first time you sign in.

3. Submit your contact info, and your local sales representative will provide you with access.

You are now ready to submit your first idea

1. Go to t-doc.uservoice.com and select the sign-in option "T-DOC Customer."

2. Type in your idea. If a similar suggestion already exists, it will automatically pop up.

3. If your suggestion is not yet listed, submit it.

4. Go explore! Vote, comment, and subscribe to other ideas.

5. You, and all subscribers, will automatically get notified when the status of your idea changes.

Good to know

- Incoming ideas are evaluated continuously. Admin will continuously change idea status, and creator and subscribers will automatically receive notifications.

- As a rule, only ideas with a certain level of votes are eligible for review.

- Please submit your good ideas in English to ensure correct classification and handling of your ideas.

- Only your name will appear in the forum, not your hospital name.

- Flexible notification settings can be adjusted to fit your needs.
