

Modular Rack Solutions

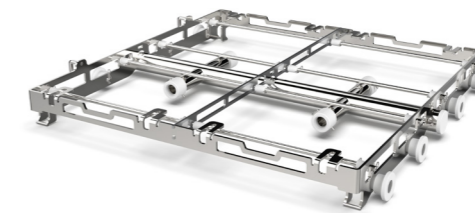

for GMP GEW Washers

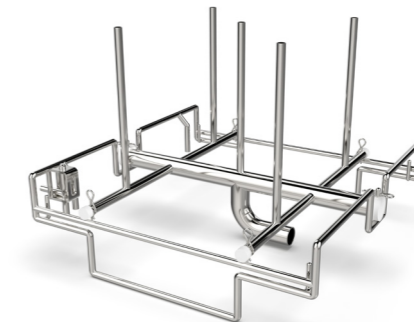

We listened!

Getinge has developed modular rack solutions to better satisfy your needs. We provide a myriad of solutions in just a few simple steps.

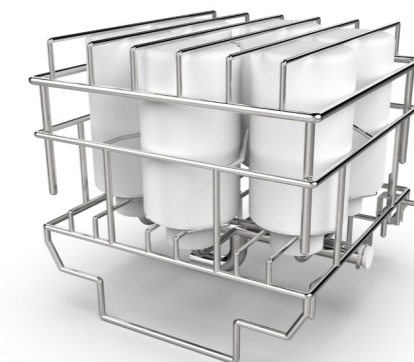

Step 1: Choose your base according to your Getinge GMP washer

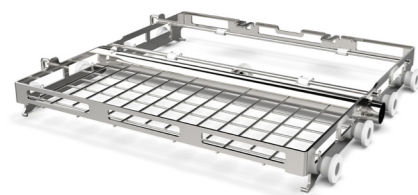

Step 2: Choose your modules

Step 3: Customize according to your wash load

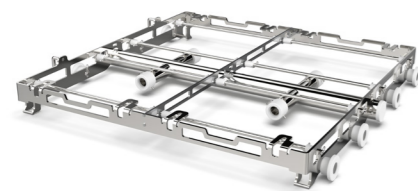

Base rack for Modules - GEW 888

Allows for loading of one module on a single level.
A second base can be placed on the upper level of the chamber.

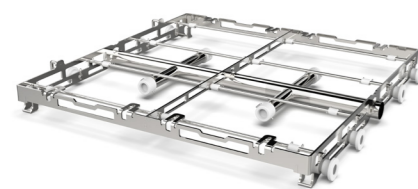

Part Number: 02300002

Base rack for Modules - GEW 9109

Allows for loading of 4 modules on a single level.

Part Number: 02270016

Base rack for Modules - GEW 101210

Allows for loading of 4 modules on a single level.

Part Number: 02280016

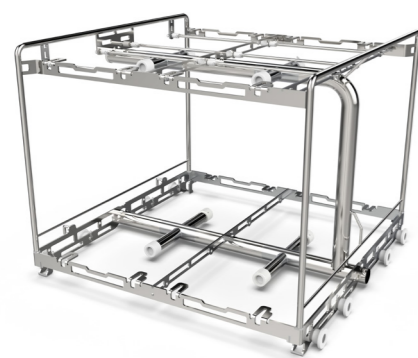

Two - level rack incl. 1 base + 1 PS basket type - GEW 101210

Allows for loading of:

- 4 modules on the upper level
- Mesh baskets and miscellaneous accessories on lower level

Part Number: 02280015

Two - level base rack for Modules - GEW 101210

Allows for loading of:

- 4 modules on the upper level
- 4 modules on the lower level

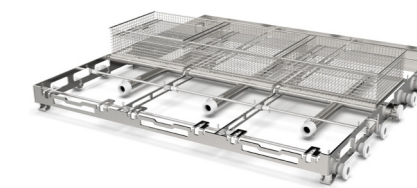

Part Number: 02280014

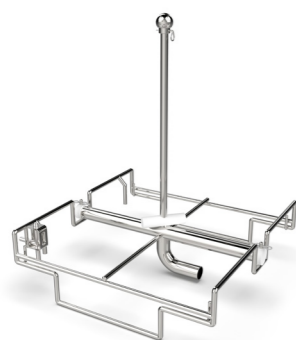

Base rack for Modules - GEW 131313

Allows for loading of:

- 6 modules + 3 mesh baskets on a single level

Part Number: 02260018

1 long jet Module GMP

Single long jet module with jet spacing of 364 mm / 14.33".

Please refer to the Module Capacity Matrix.

Custom or adjustable grids are recommended to support glassware.

Part Number: 02310002

16 short jet Module GMP

16 short jet module with jet spacing of 83 mm / 3.26".

Please refer to the Module Capacity Matrix.

Custom or adjustable grids are recommended to support glassware.

Part Number: 02310007

4 long jet Module GMP

4 long jet module with jet spacing of 2 x 210 mm & 2 x 150 mm / 2 x 8.26" & 2 x 5.90".

Please refer to the Module Capacity Matrix.

Custom or adjustable grids are recommended to support glassware.

Part Number: 02310001

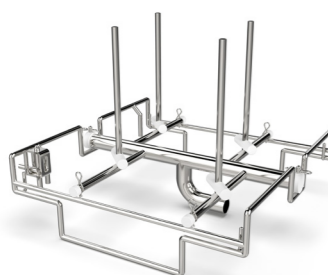

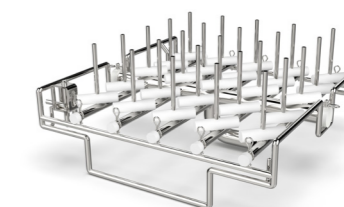

25 short jet Module GMP

25 short jet module with jet spacing of 67 mm / 2.63".

Please refer to the Module Capacity Matrix.

Custom or adjustable grids are recommended to support glassware.

Part Number: 02310013

4 short jet Module GMP

4 short jet module with jet spacing of 2 x 210 mm & 2 x 150 mm / 2 x 8.26" & 2 x 5.90".

Please refer to the Module Capacity Matrix.

Custom or adjustable grids are recommended to support glassware.

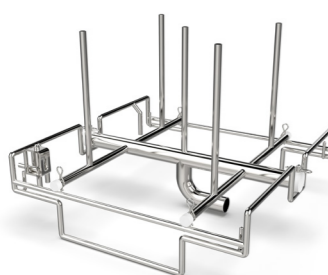

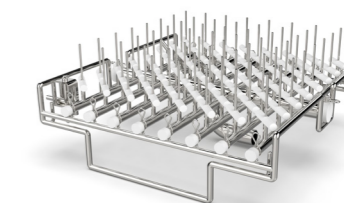

Part Number: 02310003

64 standard needle jet Module GMP

64 needle-type jets (Ø 2mm / 0.078 inch, H: 86 mm / 3.38") with jet spacing of 42 mm / 1.65".

Please refer to the Module Capacity Matrix. Custom or adjustable grids are recommended to support glassware.

Part Number: 02310006

5 long jet Module GMP

5 long jet module with jet spacing of 150 mm / 5.90".

Please refer to the Module Capacity Matrix.

Custom or adjustable grids are recommended to support glassware.

Part Number: 02310012

64 short needle jet Module GMP

64 short needle-type jets (Ø 2mm / 0.078", H: 50 mm / 1.96") with jet spacing of 42 mm / 1.65".

Please refer to the Module Capacity Matrix. Custom or adjustable grids are recommended to support glassware.

Part Number: 02310005

9 long jet Module GMP

9 long jet module with jet spacing of 113 mm / 4.45".

Please refer to the Module Capacity Matrix.

Custom or adjustable grids are recommended to support glassware.

Part Number: 02310008

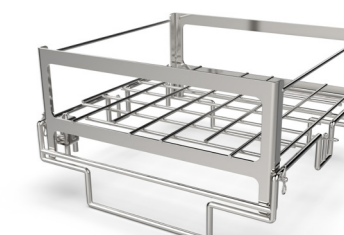

Basic Module

Available overall dimensions (W x D) 364 mm x 364 mm / 14.33" x 14.33".

This module is used to wash parts by means of the rotating spray arms of the washer. Various removable accessories may be added to this module.

Please refer to the Module Capacity Matrix.

Part Number: 02310004

TC Clamps and gasket support for basic Module

Designed for TC clamps and TC gaskets.

This accessory is loaded on the basic module.

Part Number: 02310011

Mesh basket for basic Module

Available overall dimensions (W x D): 330 mm x 330 mm / 12.99" x 12.99".

Designed for loading of miscellaneous parts. This accessory is loaded on the basic module.

Part Number: 02310010

Adjustable Cross-Bar grid for Module

External dimensions (W x D) : 390 mm x 378 mm / 15.35" x 14.88".

This accessory is used on jet and basic modules to separate parts / glassware.

Part Number: 02310009

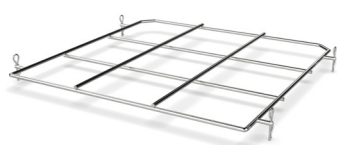

5 jets Cross-Bar grid for Module

This accessory is used on 5 jet modules to support glassware. A guideline for adjustment of the support is available to facilitate the customization process.

Please consult us for any customized grid requests.

Part Number: 02310014

9 jets Cross-Bar grid for Module

This accessory is used on 9 jet modules to support glassware. A guideline for adjustment of the support is available to facilitate the customization process.

Please consult us for any customized grid requests.

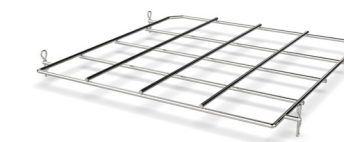

Part Number: 02310015

16 jets Cross-Bar grid for Module

This accessory is used on 16 jet modules to support glassware. A guideline for adjustment of the support is available to facilitate the customization process.

Please consult us for any customized grid requests.

Part Number: 02310016

25 jets Cross-Bar grid for Module

This accessory is used on 25 jets modules to support glassware. A guideline for adjustment of the support is available to facilitate the customization process.

Please consult us for any customized grid requests.

Part Number: 02310017

Module for 20" filter housing

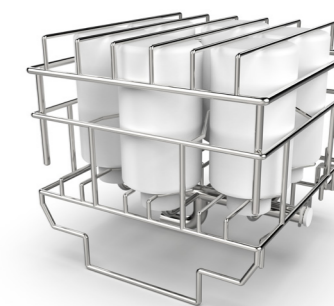

Designed for (2) 20" filter housing and filter assemblies.

This module is to be customized for the parts to be washed.
Accurate dimensions on parts will be required for module design.

Customized Module for 2- L carboys

Designed for (6) 2-liter carboys.

This module is customized for the parts to be washed.
Accurate dimensions on parts will be required for module design.

Module for 5" & 10" filter housing

Designed for (1) 5" filter housing + (1) 10" filter housing assembly.

This module is customized for the parts to be washed.
Accurate dimensions on parts will be required for module design.

Customized Module for 8- L carboys & caps

Designed for (2) 8-liter carboys + 2 caps

This module is customized for the parts to be washed.
Accurate dimensions on parts will be required for module design.

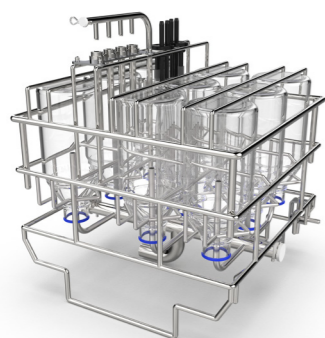

Customized Module for flexible hoses

Designed for 1 flexible hose \varnothing 6.4 x 12.7 mm / 0.25" x 0.50" length 4000 mm / 157.48"
+ 1 flexible hose \varnothing 12.7 x 19.1 mm / 0.50" x 0.75" length 4000 mm / 157.48"
+ 1 flexible hose \varnothing 15.9 x 22.2 mm / 0.62" x 0.87" length 4000 mm / 157.48"
This type of module is fully customized according to parts to be washed.
Accurate dimensions on parts will be required for module design.

Customized Module for flexible hoses

Example of load pattern:
(4) flexible hoses diam 4 x 8 mm / 0.15" x 0.31", length 2,800 mm / 110.23"
(6) flexible hoses diam 6 x 10 mm / 0.23" x 0.39", length 2,800 mm / 110.23"

This module is customized for the parts to be washed.
Accurate dimensions on parts will be required for module design.

Customized Module for bottles, filling needles and caps

Designed for (9) 500 ml bottles or (9) 1-liter bottles
+ 4 filling needles
+ 2 caps

This module is to be customized for the parts to be washed.
Accurate dimensions on parts will be required for module's design.

Customized Module for measuring cylinders and bottles

Example of load pattern:
(4) 2-liter measuring cylinders
(1) 500-ml measuring cylinder + 5 bottles.
Custom and removable grid to be added.

This module is customized for the parts to be washed.
Accurate dimensions on parts will be required for module design.

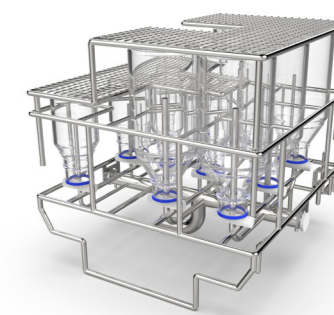

Customized Module for 10 or 20-L carboys and caps

Designed for (1) 10 - liter or 20 - liter carboy + 1 cap
This module is customized for the parts to be washed.
Accurate dimensions on parts will be required for module's design.

Customized Module for bottles

Example of load pattern:
(5) 250-ml bottles
(5) 1-liter bottles. Custom and removable grid to be added.

This module is customized for the parts to be washed.
Accurate dimensions on parts will be required for module design.
